AI Skill Tech – School Collaboration Proposal

■ **Why AI in Schools?**

The future belongs to Artificial Intelligence. Global education leaders recommend AI literacy at the school level. Over 60% of future jobs will be AI-driven. Schools that integrate AI will not only boost their reputation but also prepare students for real-world opportunities.

■ **Why This Matters for Your School**

- Gain the title of 'AI Ready School'
- Attract parents and boost admissions
- Competitive advantage over other schools
- Future-ready students with confidence & creativity

■ **Our Proposal (AI Skill Tech Collaboration)**

■ Provide AI Curriculum (age-appropriate)
■ Train Teachers to guide students
■ Workshops for Students (ChatGPT, Veo 3, AI Art)
■ Certification with AI Skill Tech badges
■ Annual AI Fair for student projects

■ **Course Modules for School Students**

Level	Grades	Focus Areas
Level 1	6–8	Intro to AI, Fun AI tools, AI in games & cartoons
Level 2	9–10	Prompting, Presentations, Business & freelancing basics
Level 3	11–12	AI video editing, Freelancing, AI-based mini-projects

■ **Benefits for the School**

- Branding as 'First AI Ready School in City'
- Media coverage & parent satisfaction
- Student career advantage
- Increase in school admissions

■ **Collaboration Model**

1■■ School pays AI Skill Tech for full program
2■■ Parents pay small AI fee (monthly/annual)
3■■ Revenue share between AI Skill Tech & School

■ **Next Steps**

- Start with a 4–6 week pilot program
- Expand to full school rollout
- Organize first AI Fair
